

## Insurance for the increasing risk of fraud and cybercrime.

From identity theft to phishing emails, phone scams and more, fraud and cybercrime are on the rise as criminals find new ways to exploit vulnerabilities. And, due to their wealth and uniquely complex lives, high net worth individuals are at a greater risk of being targeted. To help you respond to these risks, PURE Starling™ is an optional endorsement designed to enhance our High Value Homeowners policy by adding coverage for losses caused by fraud and cybercrime and providing access to resources to help you recover if you become a victim.

PURE Starling includes broad coverage for fraud and cybercrime, including coverage for financial loss resulting from online and offline fraud, services to help you assess and respond to cyber extortion threats and coverage to remove malware and reinstall software after an attack.

**Online and Offline Fraud Coverage.** Our coverage helps to reimburse you for financial loss due to fraud, whether it's committed online or offline.

Coverage is intended for:

*Social Engineering.* If your authorized account user—such as a personal assistant or family office manager—is deceived into wiring money from your account.

*Unauthorized Transfer or Payment.* If a credit card transaction, bank payment or wire transfer is made without your authorization.

*Criminal Deception.* If you are deceived into making a payment or providing something else of value.

*Forgery or Alteration of Checks*

*Acceptance of Counterfeit Money*

*Identity Fraud*

### MEMBER STORIES

A PURE member wired \$11,000 to reserve a vacation home for her family from what appeared to be a legitimate online rental website. It was later discovered that the listing was fake and not affiliated with the site. The money had been transferred to a fraudulent account in England which was unable to be recovered.

When a PURE member discovered \$240,000 had been wired from his account, he contacted his bank. He learned the bank had received an email appearing to be from the member and had called the member's cell phone to validate the transaction. The criminal had redirected the member's cell number to their own phone and confirmed the amount and wire instructions.

A PURE member was browsing the Internet when he received a pop-up window stating their computer would be locked and all files would be deleted unless a \$10,000 ransom was paid within the next 24 hours.
