A Smarter Approach to Billing and Policy Delivery

There is no payment required at the time a policy is bound. Instead, we bill your clients directly, and they are automatically enrolled into a quarterly installment plan at no charge, with the first installment due in 30 days. Policy documents are available instantly once the policy is bound and your clients can opt for mail or electronic delivery.

Among the Broadest Coverage Available

Coverage is broader than what's typically found in the E&S market and has been specifically designed for high value homeowners. See the coverage comparison chart for additional information.

An exceptional insurance experience for high net worth individuals with higher risk homes.

ABOUT

PURE Programs provides an unmatched insurance experience for successful individuals and families that require an Excess & Surplus (E&S) solution for their home. Your clients will benefit from broader coverage, specifically designed for high value homes, along with an unmatched service experience. You will benefit from a simpler, more efficient process that includes self-serve quoting, access to dedicated underwriters, direct billing and policy download to your agency management system.

PURE Programs is a managing general underwriter (MGU). Policies are underwritten by independent partner insurers who are rated A or better for financial strength by A.M. Best.

Best-in-Class Claims Handling

At the time of a loss, your client will report their claim directly to one of our licensed adjusters, so they tell their story only once and the settlement process begins immediately. What's more, our highly-experienced in-house adjusters handle claims fast, efficiently and empathetically.

Risk Management Specialists

Our team of Risk Managers has deep expertise in the custom intricacies of high value homes. The in-house Risk Management Consultation is designed to help ensure your clients have the right coverage, are benefiting from all the premium credits they qualify for and are well-advised on steps they can take to protect their home.

Access to Member Advocates

Policyholders have access to the exceptional service provided by Member Advocates. This team is dedicated to supporting policyholders before, during and after a claim. They can assist with implementing recommendations made by our Risk Managers, take on administrative tasks at the time of a claim—for example, finding alternative housing—and, after a loss, can help determine the best solutions to prevent a similar loss from re-occurring in the future, for example, they can help with installing an automatic water shut-off system.

Access to Catastrophe Response Capabilities

When a catastrophic storm is forecast, the catastrophe team is deployed to the area along with emergency equipment and supplies in advance of the storm making landfall. We have contracts in place with arborists and restoration firms, reserving them exclusively for policyholders, significantly reducing or eliminating wait time.

Wildfire Mitigation Program

This program is available to policyholders in wildfire-prone areas and includes pre-fire and emergency response services intended to reduce—or even prevent—a loss from wildfire. We can inspect the policyholder's property for vulnerabilities, help them address them, and provide expert risk management advice. Then a Member Advocate can help implement those recommendations. And in the event of an active wildfire, we keep policyholders informed about the fire's movements, provide emergency contact information and—if warranted—potentially send one of our preferred mitigation vendors to help protect their home.

The Situation Room

This online resource is filled with analysis and advice on risks facing high net worth homeowners. In the event your client is threatened by a catastrophic weather event, we'll alert them and offer advice, resources, and the assistance of Member Advocates to help.
